# S3 ALARM RESPONSE

*At Superior Smart Security we provide peace of mind by providing Mobile security patrol and response services with state of the art receiving and monitoring facilities. We take pride in our ability to provide you with S3 Alarm Response Solutions tailored to customer needs.*

## How We Support

When an activation signal is received at one of the National Control center our controller will coordinate and dispatch response teams to verify whether the activation was inadvertent or it's an actual security breach. The S3 Response team will verify the status of the client's property, facility or residence. Once a breach has been identified, action will be taken by the response team. Each of our Control Rooms either centrally or locally are equipped with the latest technology.

## S3 Alarm response services include

- 24/7 Control Room monitoring
- Strategically based radio dispatched alarm response vehicles with satellite tracking that will respond in minutes.
- Highly trained response team.
- K9 tracker dogs' response unit on call
- Self-testing digital alarm transmitter equipped with anti-tamper device
- SMS alerts for client notification of alarm occurrence
- Roadside rescue service for clients.
- Video alarm verification.
- Fire alarm monitoring.
- Escort Services.
- CCTV Video Monitoring.
